

Cummins Warranties: Dependability In Action.

*...No matter where
our customers drive,
there's always an
authorized Cummins
service facility
nearby to handle any
warranty issues....*

One of the big reasons that customers continue to choose Cummins engines year after year is that Cummins stands behind our products with warranty coverage that is easy to understand and comprehensive in its coverage. Every element in the base warranty, from parts to labor to progressive damage, is covered with no deductible. Plus, no matter where our customers drive, there's always an authorized Cummins service facility nearby to handle any warranty issues – with trained and certified technicians at 3,500 locations throughout the United States and Canada. For complete warranty information, please consult your Cummins distributor. We will feature ISL warranty information in *PowerLine* Issue 62.

ISX And ISM EPA '07 Base Warranty.

Cummins '07 ISX and ISM base engine coverage for line-haul applications is 2 years/250,000 miles (402,336 km) with injector coverage for 2 years/125,000 miles (201,168 km), whichever comes first.

2-Year/250,000-Mile (402,336 km) Coverage

- 100% parts and labor on warrantable failures*
- Travel or towing when engine is disabled by a warrantable failure or further operation would cause damage
- Consumables not reusable due to covered failure
- Fuel injectors and aftertreatment injector covered for 2 years or 125,000 miles (201,168 km), whichever comes first
- Cooled-EGR components, Variable Geometry Turbocharger and aftertreatment components
- Limited progressive damage including aftertreatment

In addition to the base engine warranty, major castings and forgings such as the block, crankshaft, cylinder head casting, and gears have additional coverage good for 5 years/500,000 miles (804,672 km) on both the ISX and ISM engines. Major components coverage includes:

5-Year/500,000-Mile (804,672 km) Major Components Coverage

- 100% registered parts and labor on warrantable failures*
- Limited progressive engine damage including aftertreatment
- Consumables not reusable due to covered failure
- Major castings and forgings

*Warrantable failures are those due to defects in Cummins material or factory workmanship.

ISX And ISM Extended Coverage Plans.

For even greater peace of mind, Cummins offers three levels of extended coverage. All three plans cover 100% registered parts, 100% labor on covered failures and limited progressive engine damage including aftertreatment.

Protection Plan 1: 3-year/300,000-mile (482,804 km) coverage

Protection Plan 2: 4-year/400,000-mile (643,738 km) coverage

Protection Plan 3: 5-year/500,000-mile (804,672 km) coverage*

All three plans cover internal components, major engine systems and the following, including mounting hardware and gaskets:

- Cylinder head assembly
- Oil pan assembly
- Rocker lever assembly
- Connecting rod assembly
- ECM
- Lube pump assembly
- Pistons, rings and liners
- Camshaft and bushings
- Lube oil cooler assembly
- Cam follower assemblies
- Cylinder block assembly
- EGR cooler, valve and mixer

Protection Plan 1 also includes the following:

- Turbocharger
- Water pump
- Fuel injectors**

*\$250 deductible applies per service visit after expiration of the base warranty.

**Does not include aftertreatment injector.

ISX And ISM EPA '07 Vocational Coverage Plans.

Cummins engines used in vocational applications such as dump trucks, cement mixers or refuse haulers are designed to pull you through the most difficult working conditions. The following plans are optimized for V-rated engines and are available on every ISX and ISM EPA '07 engine built.

Vocational Coverage Plan 1: 5-year/150,000-mile (241,402 km) protection

This plan covers internal components and major engine systems, including 100% parts and labor on all covered failures, limited progressive damage, including aftertreatment, and includes mounting hardware and gaskets on the following components:

- Cylinder head assembly
- Oil pan assembly
- Rocker lever assembly
- Connecting rod assembly
- ECM
- Lube pump assembly
- Pistons, rings and liners
- Camshaft and bushings
- Lube oil cooler assembly
- Cam follower assemblies
- Cylinder block assembly
- EGR cooler, valve and mixer

For more details, see Bulletin 4971057.

Extended Major Components Coverage.

Two additional plans are available to help you avoid unexpected expenses on trucks you keep longer. They include 100% registered parts and labor on covered failures, with limited progressive damage, including aftertreatment as well as consumables that are not reusable. Registered parts include major castings and forgings.

Plan 1: 6-year/600,000-mile (965,607 km) major components coverage

Plan 2: 7-year/700,000-mile (1,126,541 km) major components coverage
